

Marketplace Platform – Founder Requirements

Version 1.0

PART 2

SECTION 6 – EXPERIENCES

6.1 Experience Listings

Priority: ● Mandatory

Category: Experiences

Requirement

The platform must allow verified Hosts and approved Companies to create and publish experience listings.

Examples include:

- Guided tours
- Cultural experiences
- Outdoor activities
- Adventure activities
- Food and dining experiences
- Workshops and classes
- Wellness experiences
- Private events

Explanation

Experiences must function independently from accommodation listings while using the same marketplace structure.

6.2 Experience Information

Priority: ● Mandatory

Category: Experiences

Requirement

Every experience listing must include at minimum:

- Title
 - Description
 - Category
 - Photos
 - Meeting location
 - Duration
 - Available dates
 - Available times
 - Maximum participants
 - Minimum participants (optional)
 - Language(s)
 - Price
 - Cancellation policy
 - What's included
 - What's not included
 - Guest requirements
 - Safety information where applicable
-

6.3 Experience Availability

Priority: ● Mandatory

Category: Booking

Requirement

Experience providers must be able to:

- Set available dates
 - Set available time slots
 - Block unavailable dates
 - Set participant limits
 - Pause bookings temporarily
-

6.4 Experience Approval

Priority: ● Mandatory

Category: Verification

Requirement

The Administrator must be able to manually review and approve an experience before it becomes publicly available.

6.5 Guided Tours

Priority:  Mandatory

Category: Experiences

Requirement

The platform must support guided tours.

Providers must be able to specify:

- Guide language
 - Tour duration
 - Group size
 - Meeting point
 - Included services
-

6.6 Experience Location Privacy

Priority:  Recommended

Category: Privacy

Requirement

Where appropriate, the provider should be able to keep the exact meeting point hidden until a booking has been confirmed.

SECTION 7 – SERVICES

7.1 Service Listings

Priority:  Mandatory

Category: Services

Requirement

Verified Hosts and approved Companies must be able to offer location-based services.

Examples include:

- Airport pick-up
 - Airport drop-off
 - Private transportation
 - Cleaning services
 - Photography
 - Private chef
 - Laundry service
 - Equipment rental
 - Local guide
 - Concierge services
-

7.2 Service Information

Priority:  Mandatory

Category: Services

Requirement

Every service listing must include:

- Service name
 - Description
 - Photos (where applicable)
 - Service area
 - Pricing
 - Availability
 - Duration
 - Booking requirements
-

7.3 Service Area

Priority:  Mandatory

Category: Services

Requirement

Service providers must define where they operate.

Supported options should include:

- City
- Region
- Radius around a location

- Multiple cities
-

7.4 Service Availability

Priority: ● Mandatory

Category: Booking

Requirement

Providers must be able to define:

- Working days
 - Working hours
 - Maximum bookings per day
 - Days unavailable
-

SECTION 8 – SEARCH & FILTERS

8.1 Search

Priority: ● Mandatory

Category: Search

Requirement

Users must be able to search by:

- Destination
 - Dates
 - Guests
 - Category
 - Price
-

8.2 Filters

Priority: ● Mandatory

Category: Search

Requirement

Accommodation filters should include at minimum:

- Price
- Bedrooms
- Bathrooms
- Beds
- Guest capacity
- Amenities
- Property type
- Rating

Experience filters should include:

- Category
- Duration
- Language
- Price
- Group size

Service filters should include:

- Service type
 - Location
 - Availability
 - Price
-

8.3 Sorting

Priority:  Mandatory

Category: Search

Requirement

Users must be able to sort results by:

- Recommended
 - Lowest price
 - Highest price
 - Highest rating
 - Distance
 - Newest listings
-

8.4 Favourites

Priority:  Mandatory

Category: User Experience

Requirement

Users must be able to save listings to a favourites or wish list.

Users must also be able to remove listings from favourites.

8.5 Search History

Priority: ● Recommended

Category: User Experience

Requirement

The platform should remember recent searches to improve user experience.

Users must be able to clear their search history.

SECTION 9 – MAP SYSTEM

9.1 Interactive Map

Priority: ● Mandatory

Category: Maps

Requirement

The platform must provide an interactive map displaying available listings.

Users must be able to:

- Zoom
 - Drag
 - Change map area
 - View listing prices directly on the map
-

9.2 Approximate Property Location

Priority: ● Mandatory

Category: Privacy

Requirement

Exact property locations must never be shown publicly.

The public must only see an approximate location.

9.3 Map Privacy

Priority: ● Mandatory

Category: Security

Requirement

Exact coordinates must never be exposed through public APIs.

The platform should use an approximate location (map fuzzing) to protect Host privacy.

9.4 User Location

Priority: ● Mandatory

Category: Privacy

Requirement

Users may choose to share their device location.

Location access must always require user permission.

Users who decline location sharing must still be able to use the platform normally.

9.5 Blocked Locations

Priority: ● Mandatory

Category: Administration

Requirement

The Administrator must be able to block specific countries or regions from appearing on the platform where required for business, legal or operational reasons.

This setting must be configurable through the administration panel without requiring software changes.

SECTION 10 – PROPERTY MANAGEMENT

10.1 Property Types

Priority: ● Mandatory

Category: Listings

Requirement

The platform must support multiple property types.

Examples include:

- Apartment
- House
- Villa
- Hotel
- Cabin
- Room
- Other accommodation types

The Administrator must be able to create additional property types.

10.2 Listing Drafts

Priority: ● Mandatory

Category: Listings

Requirement

Hosts must be able to save unfinished listings as drafts before publishing.

10.3 Listing Status

Priority: ● Mandatory

Category: Listings

Requirement

Listings must support the following statuses:

- Draft

- Pending approval
 - Published
 - Suspended
 - Rejected
 - Unavailable
-

10.4 Listing Approval

Priority:  Mandatory

Category: Verification

Requirement

The Administrator must be able to manually review and approve property listings before publication.

Future listings may also require manual approval if enabled by the Administrator.

10.5 Property Photos

Priority:  Mandatory

Category: Listings

Requirement

Hosts must be able to upload multiple high-quality photos.

The Administrator must be able to remove inappropriate, misleading or prohibited images.

10.6 Amenities

Priority:  Mandatory

Category: Listings

Requirement

The platform must include a flexible amenities system.

The Administrator must be able to:

- Add amenities
- Edit amenities
- Remove amenities

- Organise amenities into categories

Initial amenities should include, at minimum:

- Wi-Fi
 - Parking
 - Air conditioning
 - Kitchen
 - Washing machine
 - Breakfast
 - Airport pick-up
 - Guided tours
 - Pool
 - Gym
 - Pet friendly
 - Family friendly
-

10.7 Tourism Permit Number

Priority:  Country Specific

Category: Compliance

Requirement

Where required by local laws or regulations, Hosts must provide a valid Tourism or Short-Term Rental Permit Number before publishing a property.

The platform must support:

- Permit number
 - Verification status
 - Public display of the permit number where legally required
-

10.8 Property Editing

Priority:  Mandatory

Category: Listings

Requirement

Hosts must be able to update their listings at any time.

The Administrator may require certain changes, such as a new address or major listing updates, to be reviewed before becoming publicly visible.

10.9 Listing Suspension

Priority: ● Mandatory

Category: Administration

Requirement

The Administrator must be able to temporarily suspend or permanently remove listings that violate platform policies or applicable laws.

The Host should receive a notification explaining the reason for the action where appropriate.

END OF PART 2
